FX Cruiser SVHO

All the thrills, all the chill.

Looking for adrenaline-pumping action or relaxed adventures? The FX Cruiser SVHO has it all. Open the throttle and you'll discover an impressive sports machine ready for extreme performance, or just go smooth and enjoy the scenery with the best cruising features and innovations.

Add some cutting-edge cool to your cruise. From our unique revolutionary RiDE® system and lightweight hull to the exclusive electronic control systems and the supercharged, 4-stroke 1,812cc engine, this super-powerful WaveRunner is packed with innovative technology and engineering.

Power up the adventure. The new seven-inch touch screen Connext® display with Enhanced Drive Control gives you more options with Economy, Towing, Performance, Comfort and Customisable drive modes. The new distinctive teal and black livery creates a lasting impression on the waves and at the dock, plus a Yamaha Music integrated audio system for ultimate sound clarity and quality at any speed.

- Audio integrated with control via display
- Improved ergonomics and increased wind protection
- Revolutionary RiDE® system for intuitive control
- Smartphone synchronisation capability
- GPS chart plotter ready
- Easy access glove box
- Longest, most comfortable hull in the range
- Seven-inch display with Enhanced Drive Control Modes
- Luxurious two-piece, three-person tiered seat
- Unique four-step tilt-adjustable steering system
- Supercharged SVHO 1812cc engine with EFI

FX Cruiser SVHO

All the thrills, all the chill

Looking for adrenaline-pumping action or relaxed adventures? The FX Cruiser SVHO has it all, in a sophisticated matt teal with black accents for an understanded yet aggressive look, which looks amazing on the waves. Open the throttle and you'll discover an impressive sports machine ready for extreme performance, or just go smooth and enjoy the scenery with the best cruising features and innovations.

Awesome performance, and incredible handling. The supercharged Yamaha SVHO engine works beautifully with the sleek body shape and lightweight hull to deliver awesome performance with stable, agile handling, all complemented by our revolutionary and intuitive-to-use RiDE® control system.

The cutting-edge all-electronic control systems make the FX Cruiser SVHO a leader in comfort, convenience and control, with features like Cruise Assist, three-position No-Wake Mode, electronic reverse and T.D.E. (Thrust Directional Enhancement Control) and theatre-style seating for three.

FX Cruiser SVHO

Extra features as standard

Enjoy extra features as standard on the FX Cruiser SVHO. Flush-mounted, pop-up cleats allow for simple, stress-free moorings in marinas or when picking up a mooring buoy, and the premium graphics and colour scheme are also a real head-turner.

30% more storage

We've designed around 30% more easy-access storage into our FX models so your adventures can be longer and take you further. There are cleverly integrated, practical storage solutions all over: a very large watertight glove box compartment, generous storage under the seats, at the bow and stern.

Unique, simple-to-use security system

With this innovative system there's no separate remote control to worry about. Just use a PIN code to set and unset your security and control modes via a touch on the Connext® display screen.

Supercharged, DOHC, 16V 1,812cc engine

The amazing SVHO® (Super Vortex High Output) engine produces smooth, flexible power and features highly efficient cooling and air intake systems as well as strong engine internals. The large Hyper-Flow jet pump helps turn that power into electrifying acceleration and the Electronic Fuel Injection (EFI) provides smooth and efficient power output.

Yamaha Music integrated audio system

The integrated factory-installed audio created by Yamaha Music means speakers are bigger than previous models and come with a sleek design and integrated speaker boxes. With the new audio system, the sound quality is also elevated to new heights. As you speed up or slow down, the volume, treble, and bass automatically adjust, adapting to the surrounding sonic environment, and enhancing listening pleasure.

Enhanced Drive Control Modes

Intuitive riding experience through the new Connext® display featured Enhanced Drive Control modes: Economy, Towing, Performance, Comfort and Custom. The last allows you to pre-set a top-speed limit and an acceleration curve, making it the perfect partner for novice riders. Set a steady speed on longer trips for maximum economy.
